
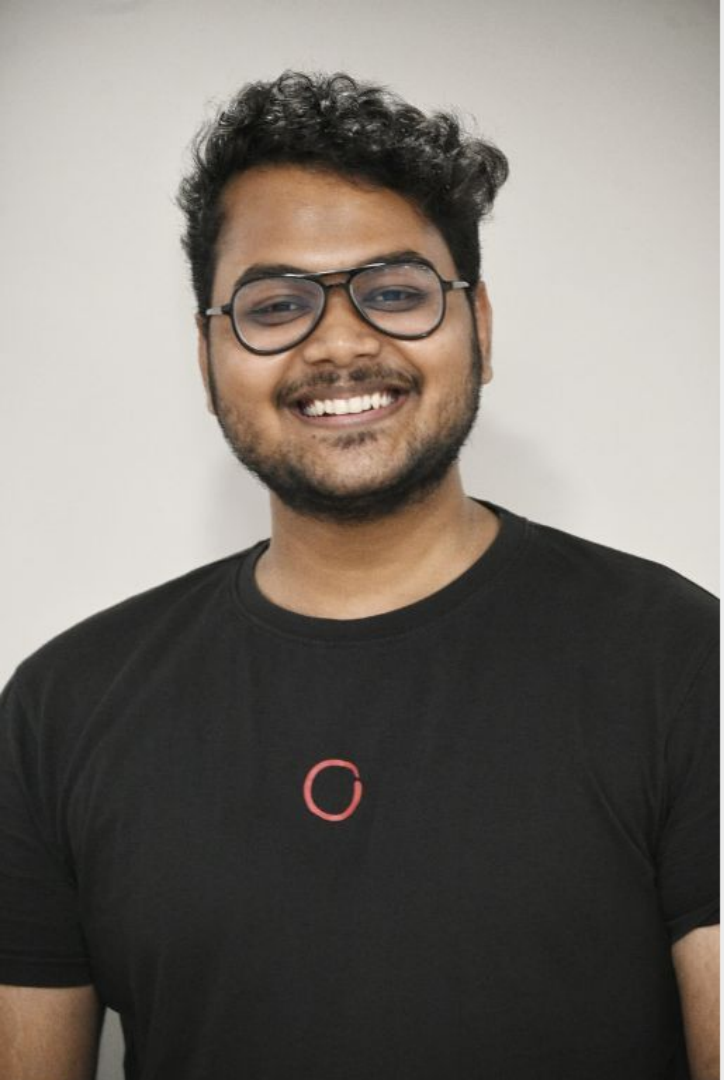
MY CREATIVE PORTFOLIO

Yatish Raj
UI/UX and Graphic Designer



ABOUT ME

I am a pre-final year computer science engineering student. I live at the intersection of creativity and technology, where pixels meet purpose and design transforms into experiences. As a UI/UX designer, I craft intuitive and user-centric interfaces that not only look beautiful but also feel seamless. As a graphic designer, I bring ideas to life through posters, social media posts, and branding that captivate and inspire. And as a frontend developer, I bridge the gap between design and functionality, turning visions into interactive realities.

NATIONAL LEVEL DOCTORS AWARENESS RALLY

Date: 01/02/2023

The Annual National Conference of the Indian Psychiatric Society [ANCIPS] organized a massive awareness rally on the occasion of the 74th Annual National Conference of the Indian Psychiatric Society. The NSS volunteers reached the Reserve Police Ground at the given reporting time [i.e. 6 am]. After reporting and getting a brief about the event, they were given the green flag to start the rally by the chief guests which then ended at the Commissionerate Police HQ which was around two kilometers from the starting venue. During the rally, the students carried placards and banners which had slogans written regarding mental health.

Volunteers participating in the Walkathon

"Whatever you are, be a good one." – Abraham Lincoln

We Elevate
The journey is Net Zero is long and will present its fair share of challenge, but we'll go the distance – because there's no other way.
Schindler
Our Road to Net Zero by 2040
An ambitious path ahead
What's Net Zero:
Net Zero means reducing greenhouse gas emissions to near-zero levels, resorting to 'offsetting' initiatives only when necessary.
Schindler
Our Commitment to a Sustainable Future
Announced on: June 2021
Approach to Achieving Net Zero:
Cleaner Electricity: Transitioning to renewable energy sources by 2025.
Supply Chain Efficiency: Streamlining processes for a greener supply chain.
Maintenance & Service: Reducing travel and optimizing service.
Product Efficiency: Developing energy-efficient elevators and escalators.
we've had our reduction target for carbon emissions validated by the Science Based Targets initiative (SBTi).

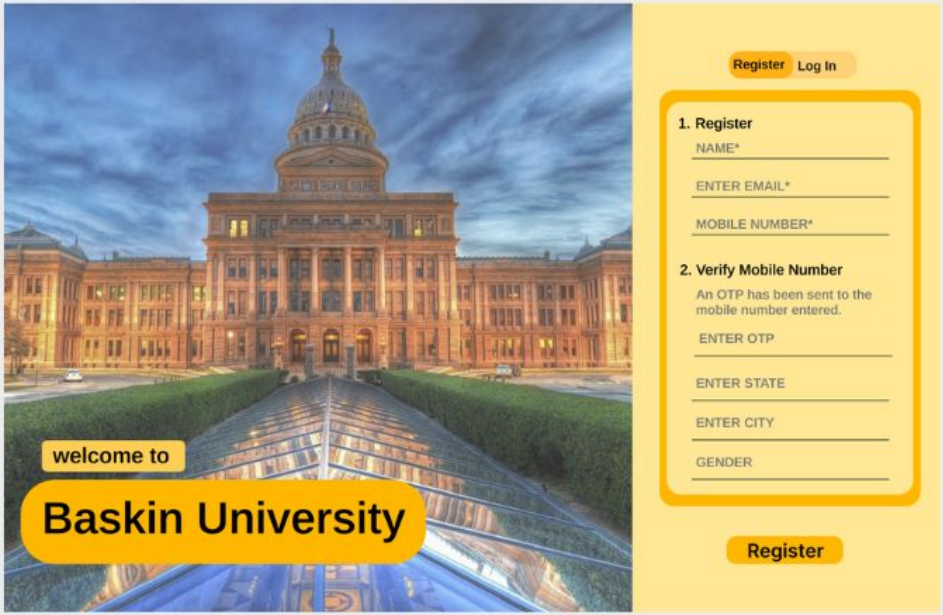
Designed ID card designs for my society

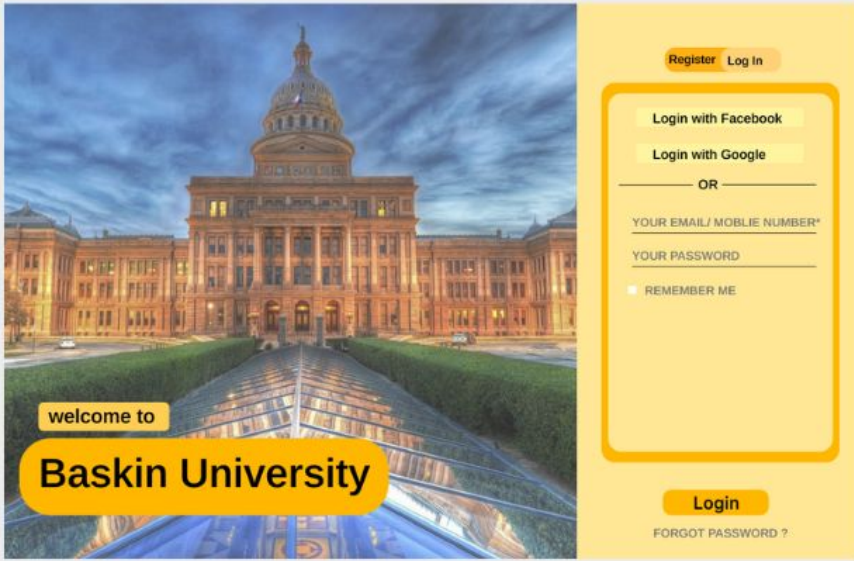
M LOON

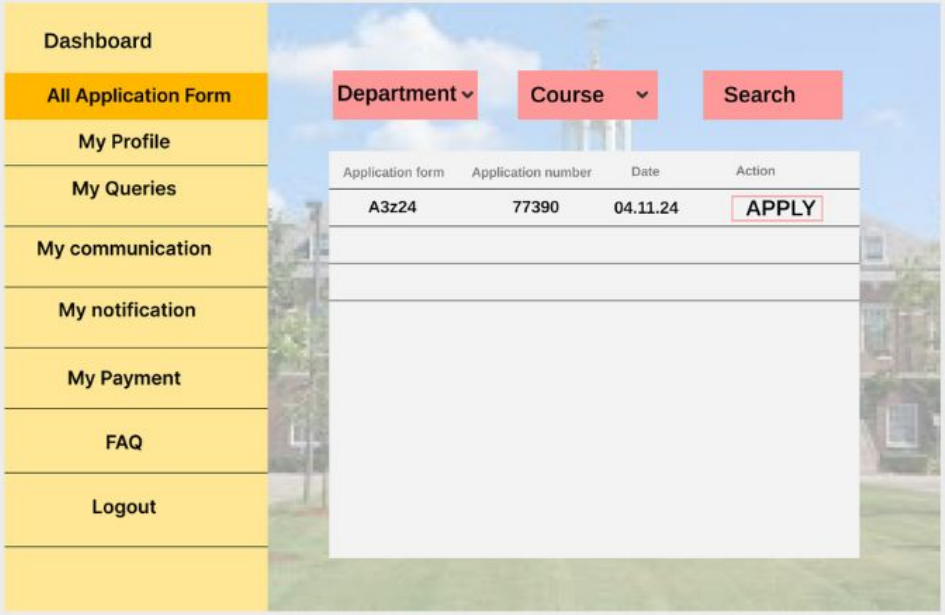
designed logos for a hair saloon startup

Also designed some certificates

website UI design







This whole university website idea is one of my projects that I've work hard for

The whole admission process of how to get into a uniiversity is here
